Nursery area display – High footfall area

Team stay, centre of farm location, high visibility

MALL DISPLAY LOCATIONS

Branding Space outside Mall

Branding Space for Lit Board Inside Mall

Branding Space for Lit Board

Branding Space Outside Mall

Pillar Space outside the mall

Positioning top-performing products in this prime location creates

- a strong first impression,
- enhances brand credibility, and
- assures customers that they have reached a trusted destination for quality solutions.

Digital Product Showcase

This high-visibility TV screen provides an effective platform to showcase

- product features,
- field performance,
- promotional campaigns, and
- educational content.

Continuous visual engagement

- enhances brand recall and
- strengthens customer confidence in the products on display.

Entry & Exit Wall Branding

Positioned at one of the most visible customer touchpoints, this branding space offers an excellent opportunity to communicate key

- brand messages,
- showcase flagship products, and
- reinforce brand identity.

Its strategic location ensures repeated exposure, helping to enhance customer engagement, strengthen brand recall, and leave a lasting impression throughout the store visit.

Pillar Branding Space

Strategically positioned within the customer movement area, pillar branding offers a unique opportunity to enhance brand visibility without occupying additional floor space. This high-frequency touchpoint can be utilized to showcase key products, promotional campaigns, and brand messages, ensuring continuous customer engagement and stronger brand recall throughout the store experience.

Beam Branding Space

Located at eye level across a key customer pathway, the beam branding area provides a continuous and highly visible platform for showcasing brand identity, product categories, and promotional messages. Its prominent placement ensures repeated customer exposure, making it an effective medium for enhancing brand recognition and creating a cohesive in-store branding experience.

Branding space outside the mall

**BRANDING SPACE FOR LIT
BOARD OUTSIDE MALL**

Positioned on the exterior façade of the mall, this high-visibility branding location offers excellent exposure to both passing traffic and visiting customers. An illuminated display board at this strategic point can significantly enhance brand awareness, attract attention from a distance, and establish a strong presence even beyond business hours, maximizing reach and recall among the target audience.

FRONT OFFICE'S GLASS BRANDING SPACE

The front office glass area serves as a premium branding opportunity, offering high visibility to every visitor entering the facility. Strategic placement of brand graphics, product highlights, and key messaging on this surface can create an immediate visual impact, reinforce brand identity, and enhance the overall customer experience. Its prominent location makes it an effective medium for increasing brand recall and communicating core value propositions in a professional and engaging manner.
